

**SUIT UP
FOR SAFETY**

The image shows the words "SUIT UP" on the top line and "FOR SAFETY" on the bottom line. The letters are large, bold, and have a 3D, metallic appearance with a fine grid texture. They are set against a dark, heavily scratched and worn metal background, which adds to the industrial and safety theme.

SUIT UP FOR SAFETY

The safety of MDOT's frontline workers is a priority. Training and awareness are key to keeping you safe in and around your work zone. The videos below will give employees the tools to perform their duties and operate equipment in a safe manner.

Occupational Hazards

Become more aware of certain hazards you will encounter on the job and how to avoid them and injuries that result from such hazards.

Overview of Mower Operation

Proper mower operation techniques, safety tips and items to check before operation.

Personal Protective Equipment

Personal Protective Equipment or PPE reduces worker exposure to hazards while on the job. Learn about the different types of PPE that you will wear during work activities.

Tractor Operation and Upkeep

Proper tractor operation techniques, safety tips and items you should check before and after operating the machine.
